Alumni

My experience at Virscend University has made me more confident in my current position. I have improved my critical thinking and problem solving skills during my studies. What attracted me most to Virscend was the small class sizes and the attentive professors, where I felt at home.

--Calvin L., SpaceX

All of my professors were professional, smart, experienced, and very supportive when I needed them. I don't have any business background and the course was a bit challenging, but my professors helped me to relieve the stress of studying and to be more scientific and efficient in completing my coursework step by step. The support has been incredible. My classmates were amazing and I loved that we were a small group of 16 students.

-- Tiffanie A., UPS
