

VIRSCEND UNIVERSITY

JULY 2024

THE STUDENT OF THE MONTH MARIO RIVAS

A message from Mario

“My experience at Virscend has been exceptional, thus far. The instructors always make themselves available, many even outside their office hours by email, or via zoom during their office hours. There's been a few occasions where my work/life situation presented a problem with a specific assignment deadline, and the instructors I had at those times were very accommodating. The instructors are always respectful and encouraging.

I've been impressed with the quality of the education I've gained at Virscend.

I chose Virscend because I have always valued education, however, MBA programs are very difficult to secure financially. Also, after attending the open house in 2022, that was promoted at the Irvine Chamber of Commerce, I discovered the caliber of the professors that were teaching at Virscend and was convinced that the quality of education for their respective courses would be at least as credible as the other universities they taught at.”
